Professional Summary

QA Engineer with 1.7 years of experience in manual and automation testing of Fintech and banking applications across web and mobile platforms. Experienced in API testing, database testing, defect tracking using Jira, and collaborating with Agile teams to deliver high-quality software. Recently gained hands-on experience in testing AI-powered and blockchain-enabled SaaS applications through a remote startup internship. Passionate about Quality Assurance and continuously building hands-on expertise in Playwright test automation, Generative AI, and Agentic AI for software testing.

Key Skills

- **Testing:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, UAT, UI Testing, API Testing, Database Testing.
- **Platforms:** Web, Android, iOS, Pcloudy, LambdaTest
- **Test Management & Defect Tracking:** Jira, Confluence, QMetry, Zephyr, QALityPlus, Asana, YouTrack
- **Automation Testing:** Selenium, Cypress, Playwright, HTML, CSS, XPath, Jenkins CI/CD, Git, BitBucket
- **Languages:** Python, TypeScript, JavaScript, SQL
- **API Testing:** Postman, Swagger, JSON validation, REST APIs
- **Database Testing:** SQL, MySQL, DBeaver, HeidiSQL
- **Middleware/Server Tools:** Oracle WebLogic Server, Docker
- **Development & Tools:** PyCharm, Eclipse, Visual Studio Code

Professional Experience

Pitchmatter, Dubai, UAE (Remote) - QA Intern

August 2025 – November 2025

- Performed manual functional and regression testing of AI-powered web and mobile applications, including the Zynk.ing matchmaking platform and CapShield Web3 platform.
- Validated end-to-end user workflows including onboarding, authentication, AI matchmaking, subscription, messaging, wallet integration, KYC verification, deposits, withdrawals, referrals, and rewards.
- Created and executed 500+ test cases with RTM mapping and reported 200+ defects in Jira with detailed reproduction steps and severity/priority.
- Collaborated with cross-functional teams in an Agile environment to ensure high-quality feature releases.

Temenos India Pvt. Ltd., Chennai, India - Test Engineer

October 2021 – February 2023

- Designed and executed 600+ manual and regression test cases for Digital Banking and Core Banking applications across web, Android, iOS, and tablet platforms.
 - Tested business-critical banking modules including customer onboarding, account management, payments, loans, deposits, and fund transfers using Temenos Infinity, T24/Transact, and TCIB/TCMB.
 - Performed API, database (MySQL), cross-browser, and cross-platform testing, reporting and tracking 500+ defects using Jira.
 - Executed Selenium automation scripts integrated with Jenkins CI/CD to support regression testing and improve release quality.
 - Collaborated with Agile Scrum teams across multiple sprint cycles to improve test coverage and deliver reliable software releases.
-

Independent Projects

- **AI-QA-Copilot** | [GitHub](#) – Built an AI-powered QA assistant that generates test scenarios and test cases from the software requirements using LLMs.
Tech Stack: Python, Streamlit, Gemini API, Groq API, LLMs, Generative AI, Prompt Engineering, Git
 - **Playwright Test Automation Framework** | [GitHub](#) – Developed an end-to-end web automation framework with reusable POM architecture and automated regression testing.
Tech Stack: Playwright, TypeScript, Page Object Model (POM), Git, GitHub
-

Education

- **Master of Engineering - Applied Electronics** **2019 – 2021**
Thanthai Periyar Government College, Vellore, India | CGPA: **8.79/10**
 - **Bachelor of Engineering - Electronics and Communication Engineering** **2015 – 2019**
Thanthai Periyar Government College, Vellore, India | CGPA: **7.9/10**
 - **Higher Secondary (Class XII), Computer Stream** **2014 – 2015**
Ethiraj Matriculation School, Vellore, India | Percentage: **94%**
 - **Secondary (Class X)** **2012 – 2013**
Ethiraj Matriculation School, Vellore, India | Percentage: **98%**
-

Professional Projects

- **Temenos Infinity (Digital Banking Platform)** – Executed functional and regression testing across web, Android, iOS, and tablet apps, ensuring stable customer journeys in onboarding, payments, and digital banking services.
 - **Temenos T24 / Transact (Core Banking System)** – Performed functional, UAT, and database testing for account management, lending, deposits, and payments workflows with MySQL validation.
 - **Temenos Connect (TCIB & TCMB – Internet & Mobile Banking)** – Conducted functional, regression, UAT, and cross-platform testing of internet and mobile banking modules, including fund transfers, onboarding, transaction history, and payments.
 - **Pitchmatter Zynk.ing (AI Matchmaking Platform)** – Tested onboarding, authentication, subscription, messaging, and KYC flows while validating API responses and user journey consistency.
 - **Pitchmatter CapShield (DeFi Platform)** – Tested wallet integration, deposits, withdrawals, crypto purchase flows, referrals, and rewards modules.
-

Certification

- [Selenium WebDriver with Python](#) – Test Automation University (Applitools) | Completed Feb 2025
-

Achievements

- **Recognized by QA team leads** for high defect detection rate and clear, detailed bug reporting.
 - Selected to **lead the QA internship team** based on strong performance and ownership.
 - Awarded a department-level stipend as one of the **top-3 rank holders** in M.E. Applied Electronics.
-
